

Andrew Aghoghowia

Senior Frontend Engineer & AI Specialist

Carshalton, UK (Remote/Hybrid)
+44 7821 460751
androyt1@gmail.com

Professional Summary

Senior Frontend Engineer with over 7 years of hands-on experience building fast, reliable, and visually polished web applications. Specialized in bridging the gap between scalable frontend architectures (React/TypeScript) and modern Generative AI integration. Known for writing clean, maintainable code, mentoring teams, and collaborating with designers to turn complex ideas into smooth, user-focused experiences. Proven track record of delivering measurable impact, including improving application performance by 40% and reducing deployment times by 30% in enterprise environments.

Technical Skills

Core Frontend	TypeScript, React, Next.js (App Router), Vue.js, HTML5, SCSS, Tailwind CSS, Astro
AI & ML	OpenAI API, Gemini Pro Vision, RAG Systems, Vector Databases (Pinecone, Weaviate), LangChain
State Management	Redux Toolkit, Zustand, TanStack Query
Backend & DevOps	Node.js, AWS (Lambda, S3), Docker, CI/CD (Jenkins, GitHub Actions), Vercel, Supabase
Testing	Jest, Vitest, Cypress, Playwright
UI Systems	shadcn/ui, Radix UI, Material UI (MUI), Storybook, Masala Design System

Experience

Aug 2023–Present	Frontend & AI Engineer (Contract / R&D), Remote - Engineered Retrieval-Augmented Generation (RAG) systems integrating OpenAI APIs and Gemini Vision, utilizing vector databases (Pinecone/Weaviate) to enable context-aware AI responses. - Architected scalable dashboards using Next.js (App Router) and serverless edge functions, achieving sub-100ms response times for data-heavy applications. - Built modular, accessible UI design libraries using shadcn/ui and Storybook to standardize development velocity across multiple client projects. - Deployed Astro and Qwik frameworks for static content delivery, maximizing Core Web Vitals and SEO performance.
------------------	---

- Dec **Senior Frontend Developer, HSBC, Leeds, UK**
- 2022–Aug 2023
- Delivered complex interfaces for onboarding and ETL tracking using React, TypeScript, and the internal Masala Design System.
 - Achieved a **40% performance improvement** by implementing aggressive code splitting, lazy loading, and component-level memoization strategies.
 - Collaborated with DevOps to refine CI/CD pipelines (AWS CodePipeline, Jenkins), reducing deployment turnaround time by **30%**.
 - Mentored junior developers and led code reviews to enforce clean architecture and consistent design patterns across the Agile team.
- Feb **Lead Frontend Developer (Contract), E-commerce Sector, Remote**
- 2021–Nov 2022
- Delivered 10+ high-performance e-commerce platforms using Next.js and Tailwind CSS, fully integrated with Shopify APIs.
 - Designed custom admin dashboards utilizing **D3.js** and **Chart.js** to visualize real-time sales analytics and conversion funnels.
 - Integrated GTM, GA4, and Facebook Pixel for precise conversion tracking, while automating SEO audits to ensure top-tier search rankings.
- 2016–2020 **Full Stack Web Developer, Kobu Innovative Solutions, Warri, Nigeria**
- Led a major frontend rewrite from legacy code to React/Vue, improving page load times and user experience metrics by **30%**.
 - Implemented WebSockets to power real-time chat features, live notifications, and dynamic content updates.
 - Developed full-stack e-commerce solutions integrating Stripe, PayPal, and mobile payment gateways.

Featured Projects

- 2023 **AI Study Companion, Next.js, OpenAI, RAG**
Built a context-aware study assistant allowing users to upload documents and query them via natural language. Implemented Gemini Vision for multimodal analysis.
- 2022 **Real-Time Collaboration Board, WebSockets, Supabase**
Developed a collaborative workspace featuring live cursors, threaded comments, and mark-down autosave, mirroring Google Docs functionality.

Education

Graduated **B.Sc. Library & Information Science, Delta State University, Nigeria**

Certifications

- 2023 **Code Warrior White Belt, React Security**
Focus on secure coding, XSS, and SQL Injection prevention.
